

# 1987 Editorial Index

# ROBOTICS WORLD

Volume 5

Numbers 1-13

*This year's ROBOTICS WORLD index covers editorial material from the January 1987 through the December 1987 issues.*

*Each feature article and guest column is indexed by exact title as published, by individual author and by subject. A listing of all authors is contained under the subject heading AUTHORS. The magazine's departmental material is indexed under the name of the department, including special show preview and review sections. Each entry is followed by the month of issue and the page number of the issue in which the material was published. Dir stands for the ROBOTICS WORLD Directory issue, which was published Aug. 15, 1987.*

*Major subject headings include: ADHESIVES, ASSEMBLY, AUTHORS, COMPONENTS, COMPUTERS, CONTROLS, EDITORIAL, MATERIAL HANDLING, ROBOTIC INDUSTRIES ASSOCIATION, VISION and WELDING.*
